SUMMARY

- Worked in a professional position as both a Full stack developer and as a Front end developer.
- Contributed to a large scalable healthcare banking application as part of a team.
- Willing and excited to learn new technologies which will progress my skill and add value to the company.
- Worked on personal projects using technologies such React, Node, Firebase, .NET Core, JavaScript , C#, Angular, TypeScript.
- Very keen to work on the Back end as well as Front end.

SKILLS

HTML5, CSS, SASS, JavaScript, TypeScript, jQuery, React, Angular, Node.js, Express, .NET Core, C#, SQL, Webpack, Adobe InDesign, Adobe Illustrator, Adobe Photoshop

PROFESSIONAL EXPERIENCE

MicroSpec / TIX123

VAUGHAN, CA

FEBRUARY 2024 - PRESENT

WEB DEVELOPER

- Create and customize registration websites for any trade shows/conferences being partnered by MicroSpec.
- Design and build new tools and features for MicroSpecs internal/external applications using HTMl, CSS, JavaScript, TypeScript, VBScript, SQL, Angular and Node.js
- Implemented PDF /exporting/exporting functionality to an internal system using Angular and Node.js, this was used to create business contracts for clients.
- Contributed to an internal/client facing application in which a user can perform actions such as to update an event attendees profile, take payments, add/remove seminars. This was built on Angular, TypeScript and Node.js.
- Using Figma, I created an array of designs for a new scalable event confirmation email template which can be used across multiple display sizes. A design was then finalised and built into the company system.

Public Consulting Group

WIGAN, UK / TORONTO, CA

APRIL 2021 - JUNE 2023

FRONT END DEVELOPER

- Building/maintaining web applications and creating new features using HTML, CSS/SASS, TypeScript/jQuery, AngularJS, TypeScript & Webpack.
- Connect to API's and create/implement new site features.
- Follow version control practices using Azure & Bitbucket, this includes multiple dev environments, branches and PR approval.
- Liaise with designers, project managers and QA to advance site UI/performance.
- Optimize web design for mobile and other platforms.
- Actively research to solve problems and implement effective solutions on any unfamiliar given tasks.
- Agile workflow working in sprints to complete assigned tasks.

Nutrition Hacks

TORONTO, CA

NOVEMBER 2018 – MARCH 2020

CUSTOMER SUCCESS SUPERVISOR

- Provided customer service via Zendesk, Konnektive (CRM), Shopify, phone and social media.
- The tools which I used are Zendesk, Konnektive (CRM), Shopify, phone and social media.
- Onboard new starters to the team by guiding them on how to use our technology.

AgriBriefing
