SUMMARY

Full stack developer with 4+ years of professional experience building scalable applications in healthcare, events, and consulting. Skilled in modern JavaScript frameworks (React, Angular, Node.js) and backend technologies (.NET, SQL) with a proven track record of delivering user-focused features, optimizing performance, and collaborating in agile teams. Adept at designing solutions that improve efficiency, reduce costs, and enhance user experience.

SKILLS

Frontend: HTML5, CSS/SASS, JavaScript, TypeScript, React, Angular, jQuery

Backend: Node.js, Express, .NET Core, C#, SQL

Tools & Workflow: Git, Azure DevOps, GitHub, Bitbucket, Webpack, Figma, Agile/Scrum

Other: REST APIs, PDF generation, CI/CD basics, Responsive Design

PROFESSIONAL EXPERIENCE

MicroSpec / TIX123

VAUGHAN, CA

FEBRUARY 2024 - PRESENT

WEB DEVELOPER

- Built and customized 20+ registration platforms for conferences/trade shows, reducing setup time by 30% through reusable Angular/Node.js modules.
- Developed PDF export functionality enabling automated business contract generation, saving 10+ hours weekly in manual work.
- Enhanced client-facing attendee management system (payments, seminars, profile updates) used by thousands of event participants.
- Designed a responsive event confirmation email template in Figma, improving cross-device deliverability and readability.

Public Consulting Group

WIGAN, UK / TORONTO, CA

APRIL 2021 - JUNE 2023

FRONT END DEVELOPER

- Delivered new features for large-scale healthcare web applications with AngularJS/TypeScript, improving usability for 50K+ users.
- Integrated REST APIs for client reporting tools, enabling real-time data access and reducing support tickets by 15%.
- Optimized site performance and mobile responsiveness, cutting average page load time by 25%.
- Collaborated with designers, QA, and project managers in Agile sprints, consistently meeting delivery deadlines.

Nutrition Hacks
